Jason Mohammad of BBC Wales will be opening the Fete at midday, so come along and join in the fun. The two-week programme of events is aimed to appeal to all ages, families and individuals, building on the success of previous years.

You can see what is on, at a glance, on the following two pages. Details of Festival events can also be found in the R&M Events Diary on the Community Website, www.radyr.org.uk. We do hope that you and your family will join us in as many of these events as possible, meeting your neighbours and making new friends.

The Association wishes to thank all our Sponsors, including Cardiff County Council, R&M Community Council the Arts Council for Wales' "Night Out" Scheme (O), Academi, Pugh's Garden Centre, GE Healthcare, Apextaylor signs, and all the local shopkeepers. RADYR AND DISTRICT GOOD NEIGHBOUR SCHEME

Radyr and District Good Neighbour Scheme are delighted to have been chosen as the 2011 charity for the Radyr and Morganstown Festival. We are a small, local charity (registered with the Charity Commission) which aims to reduce social isolation, improve the quality of life and help the more mature residents in our area feel part of a caring community, whilst continuing to live independently. We run two lunch clubs and a friendship group. We also help with shopping, local transport, library book changing, letter writing, befriending, etc and provide an information service. We are funded by donations from grateful clients and small grants from the local Community Councils and Cardiff County Council.

We are an ageing population and our service is as important now as it was when it started in 1988. We always need new volunteers as the success of The Scheme is dependent on them. Volunteering is a good way of making new friends, and getting involved in your local community. No regular commitment is required.

If you think you can help us, or would like more information about The Scheme, please contact us. Tel 2084 2404

GE Healthcare

GE Healthcare's broad range of products and services enable healthcare providers to better diagnose and treat cancer, heart disease, neurological diseases and other conditions earlier. Our vision for the future is to enable a new "early health" model of care focused on earlier diagnosis, pre-symptomatic disease detection and disease prevention.

At the GE Healthcare site in Cardiff, we develop and manufacture products and services to help researchers understand how diseases originate and assist pharmaceutical companies in the discovery and development of new drugs.

We are pleased to continue our support of the Radyr & Morganstown Community Festival and wish the organisers and residents every success with the 2011 Festival.
